## Fitting a Vape R81 to a Jawa

PÅ™idal robstuff2 - 25/02/2016 09:11

---

Hi

I want to fit a Vape R81 6 volt regulator to my Jawa C/Z model 482.

Can anyone tell me which of the three colour wires on the bike go to which connection on the Vape unit please. The Vape unit has four connections DF+ D+/61 51 DF-

I just wanted to see if any other owners have fitted one to check I get the wiring correct.

Thanks

Rob
